Get to Know InLight Risk Management

InLight Risk Management is pleased to work with members of the Oklahoma Association for Home Care & Hospice to improve their overall insurance program, reduce risk and save money. Here's what makes us unique:

Service

We have a long-term focus on the healthcare industry. Doing business this way allows us to provide more innovative, cost-effective programs and allows us the opportunity to focus on the important things – like providing exceptional, knowledgeable, and timely service.

Expertise

Our team is made up of insurance professionals who specialize in the healthcare field. We understand your issues and the unique risks you face, so we can not only craft the right protection package for you, but also help you identify, reduce, or avoid exposures you may not be aware of.

Customized Solutions

We have long-lasting relationships with many excellent insurance providers. They know the process we go through with our clients and as a result can offer us excellent programs at a lower cost. We find our clients the best protection for less.
